The Honorable Herbert Harrington
Chairman, Board of Selectmen
Southboro, Massachusetts

Dear Sir:

This will advise you that this Company has filed with the Massachusetts Department of Public Utilities revised Passenger Fare Tariffs seeking a general increase in fares.

While the revised tariffs have been issued under date of February 2, 1951, to become effective March 4, 1951, we feel certain that the Department of Public Utilities will set a date for a public hearing at which time consideration will be given to the propriety of the proposed rates of fare.

We are writing this letter to you today for two reasons. First, to explain briefly why we find it necessary to file for this rate increase and second, to assure you that we will be most happy to discuss all phases of this matter with you at any time between now and the date of the public hearing.

Under the proposed fare schedules, all zones will remain unchanged. The unit cash fare per zone will be increased from five cents to six cents.

For regular riders, provision is made for a thirteen ride commutation ticket which will sell for ten times the regular one way fare. This amounts to a discount for commuters of approximately 23%.

Round trip tickets between principal points on our lines will continue to be sold at Company Terminals and Ticket Agencies at a 10% discount.

The Honorable Herbert Harrington (Cont.)

February 2, 1951

The effect of this fare change will be to increase our one way cash fares from a minimum of 2¢ on a local one or two zone ride to a maximum of 23¢ on a ride from Boston to Worcester.

The increase, however, to the regular rider who buys a commutation ticket will be substantially less; namely, from 9/10 of one cent on a local ride to a maximum of 10 $\frac{1}{2}$ ¢ from Boston to Worcester.

We realize that at this time when price freezes are the order of the day, our action in seeking a fare increase may be misunderstood by those who are not acquainted with the facts.

Actually, this Company has increased its fares only once during the past twenty years. That increase was applied for in December, 1948 and was granted in June, 1949.

Since that time, two forces operating from opposite directions have completely wiped out all benefits realized by virtue of that fare change.

On the one hand, the mounting spiral of inflation has increased the cost of all of the goods and services necessary in the conduct of our business to unprecedented heights. For example, our average wages have increased 16 $\frac{1}{2}$ ¢ per hour in the past two years; and taxes, materials and equipment prices have increased by an even higher percentage.

On the other hand, the competition of the private automobile has resulted in a steady, continuous reduction in our patronage. In 1948, 6,279,945 passengers were carried on our lines. By 1950, this total had dwindled to 5,063,775.

The combination of higher costs accompanied by reduced revenues makes it necessary for us to seek a modification of our rate structure if we are to continue to maintain a modern, efficient service.

If there is any information concerning this matter that you desire, we will be most happy to furnish it or if you wish, we will be glad to have a representative meet with you at your convenience and discuss the matter fully.

Yours very truly,

L.L. Waters

Hon. Board of Selectmen

Gentlemen:

We would appreciate it if you would notify us and give us an opportunity to be heard if at any future time an application is made to your licensing authority either for a new license or to vary the terms of any existing license on behalf of Peter Picknelly of Springfield: Peter Picknelly, doing business as the Peter Pan Bus Line of Springfield or any other company or individual with relation to bus service between Springfield and Boston.

As you know, our company operates bus service between Boston and Worcester and Worcester and Springfield either by direct line or connecting carriers, and the granting of new licenses or the changing of the terms and conditions of old licenses by the cities and towns along the Boston to Springfield route is of vital importance.

With your permission we should like to have an opportunity to be heard before new licenses are issued or the terms of old licenses are changed in any manner if such procedure meets with your approval.

Very truly yours
